

AWARD-WINNING PRODUCTION MUSIC LIBRARY COMPANY NON-STOP MUSIC ACQUIRES V-THE PRODUCTION LIBRARY CATALOG

Salt Lake City, July 20, 2009 – Non-Stop Music, one of the music industry’s leading production music companies and a division of Warner/Chappell Music, today announced the acquisition of the entire catalog of V-The Production Library, a London-based production music library. The deal gives the Emmy award-winning Non-Stop Music worldwide publishing rights to one of the UK’s leading production libraries and expands the role as North American publisher for the catalog it has served since 2004. As part of the agreement, V-The Production Library’s team of producers and composers will continue to create library content that will be owned, exclusively marketed and distributed by Non-Stop Music.

V-The Production Library provides world-class production music for use by broadcasters, advertising agencies, audio/visual producers and filmmakers, among others. The libraries, composers and producers are behind some of the leading TV and radio theme music in the UK, including “The Weakest Link,” “Dancing On Ice,” “BBC Radio 1” and “BBC Three News.”

In making the announcement, Randy Thornton, CEO, Non-Stop Music said, “V-The Production Library is known worldwide for its impressive music catalog and its influence on some of the most successful shows coming out of the UK today. With this catalog acquisition we are adding a rich new library of music to our already deep selection, including music for highly targeted niche genres as well more mainstream, contemporary tracks. We are confident that the addition of the V library will further strengthen our international presence by giving our affiliates a much broader and deeper range of music offering to exploit around the world.”

V – The Production Library was created, composed and produced by Music 4, one of London’s leading music and audio production companies. In making the announcement, Music 4’s Managing Director, Sandy Beech said, “I am delighted to see ‘V’ become part of the Non Stop Music family. Not only is V – The Production Library in the best possible hands to move forward and grow as part of a wider offering from Non Stop Music but the team here at Music 4 can now fully focus on the creation of brand new, standout tracks for the library over the coming months and years”.

The V-The Production Library catalog will be fully integrated into CUEgle.com, Non-Stop Music’s online music search tool, which provides access to Non-Stop’s extensive production music library of more than 35,000 music cues.

Over the years, Non-Stop Music has worked on projects for all of the major television and cable networks including ABC's 1988 Winter Olympics (for which it won TK Emmy Awards), "Monday Night Football" (for which it won an Emmy Award TK), "Good Morning America," and "Judge Judy" NBC's "Today Show" and TK Election Coverage, CBS, FOX, WB, UPN, Turner, ESPN, HBO, Showtime, Discovery Channel and CNN's Larry King Live program (for which it won a 2008 BMI Award for its news music package). Additionally, Non-Stop has worked on numerous full-length feature films and film trailer projects including *Spiderman*, *Minority Report*, *X-Men*, *Jurassic Park*, *Shrek* and *Shrek the Third*, *The Perfect Storm*, *The Lion King*, *101 Dalmations*, *Harry Potter*, *National Treasure* and *Pirates of the Caribbean*, among others.
